EXPERIENCE

Frontend Engineer @ Xpand IT
May 2022 – Present

- Contributed to the development of a migration management platform, focused on migrating large volumes of legacy data to a modern centralized repository

- Engineered and optimized core UI features using React.js, Redux and Material UI, significantly enhancing the user experience

- Uncovered critical technical issues in the platform and led a refactor that significantly improved performance, code quality, system reliability and future scalability

- Wrote detailed UI documentation on Confluence, improving onboarding speed and becoming the go-to reference for the team to understand UI structure, API integration, key values and component behavior

- Collaborated within an Agile/Scrum team, using Jira for issue tracking and project management

Frontend Engineer @ Cottonhat
April 2019 – May 2022

- Migrated a legacy Headless CMS from Backbone.js to React.js + Redux + Bootstrap, modernizing the platform for improved speed, responsiveness and modularity

- Gained hands-on experience developing eCommerce stores using Next.js with SSR

- Created customized CRM platforms for industries like Property Management, Pharma, and Environmental Consultancy, enhancing business productivity and automation

- Developed a Loyalty Mobile Application and integrated with client APIs using React Native and Expo

Collaborator @ NOS Lusomundo Audiovisuais
2017 – 2019

UNIQUE EXPERIENCE

Whitebrim – Alpha Startup @ Web Summit 2019

- Attended as a Startup Employee where we had our stand and pitched our product to hundreds of people. With this experience I developed communication and improv skills
